Sub: Ban excessive use of plastic bags

Dear Editor,

I am writing to draw attention to the severe environmental harm caused by plastic litter, particularly plastic bags. These ubiquitous items contribute significantly to pollution, endangering wildlife and ecosystems.

Plastic waste not only clutters our landscapes but also contaminates our oceans, taking centuries to decompose. The resultant microplastics pose risks to human health as they infiltrate our food and water supplies.

I urge the public to reconsider their reliance on single-use polybags and opt for reusable alternatives instead. Collective action can mitigate this pressing issue.

Let us prioritize our planet's future by reducing plastic waste and promoting sustainable practices.

Thank you for addressing this critical concern.

Sincerely,

[Your Name]
